

# ADULT RESIDENTIAL RE-ENTRY SERVICES

## COMMUNITY SOLUTIONS INC.'S CONTINUUM OF ADULT RESIDENTIAL SERVICES

### Residential Work Release Re-entry Centers

These are programs for state and federal work release clients who live in a congregate setting and are supported as they obtain full-time employment and meet financial and self-sufficiency goals. The programs administer assessments, monitor compliance with treatment plan goals and involve clients in direct treatment services that address their criminogenic tendencies. Random breathalyzer or urinalysis, cognitive behavioral groups, and case management assist the client in maintaining stability leading to successful discharge. Community Solutions Inc. also offers an all-female residential work release program.

### Mothers and Infants Nurtured Together (MINT)

This is a program for pregnant offenders who have been approved for community placement. Clients receive prenatal care at a cooperating hospital, give birth and bond with their babies for three months following birth. Groups cover prepared childbirth, parenting classes, life skills, nutritional education and healthy relationships. At the close of the program, some clients transition to the community whereas others return to a secure setting after making arrangements for the care of the baby.

### Women & Children's Work Programs

These programs are for female state work release clients who live in a congregate setting and are supported as they obtain full-time employment and meet financial, self-sufficiency, and family reunification goals. The program's emphasis is on gender responsive programming aimed at helping women address substance abuse and mental health issues. Johnson and Silliman Houses are for adult women with or without children.

**“Community Solutions Inc. is truly engaged in pursuing the ultimate and critical information and services needed to provide the quality of life that all members of our community need and deserve.”**

**- Mayor Bill Finch, City of Bridgeport, CT**
